

REMARKS

Apparently, in the final rejection, the Examiner interpreted "concatenate" as to link together in any way. The list of items in Figure 16 of the reference, provide potentially selectable items, but in no way links them together in the way now claimed.

Namely, as now claimed, they must be linked together for automatic sequential playback.

Nothing of the sort is provided by the reference.

Therefore, reconsideration is requested.

Respectfully submitted,

Date: July 19, 2006
